

PHIL5180 Special Seminars on Selected Philosophical Issues

Hartry Field Tang Chun-I Visiting Professor (Spring 2012)

F07-09 UCA111

Theme: David Lewis's theory of possibility

In this 4-week course we will go through Lewis's book **On the Plurality of Worlds**, one chapter per week. The students should read the week's chapter carefully in advance; the instructor will spend about half the class presenting selected topics in that chapter, with the other half devoted to discussion of issues that the students raise.
