

UGED1111C Logic 邏輯
Course Outline

(The primary teaching language in class is Cantonese.)

Mode of Teaching: *Lecture – Online/ Online mid-term exam and online final exam*

Time : H 12:30-14:15

Location : Online

Course overview

This course is designed to develop the student's ability to analyze and critically evaluate arguments from a logical point of view. It will provide students with a basic understanding of such concepts as reasons, implication, validity, and fallacies. Students will learn the logical principles of deductive and inductive inferences and the techniques of applying them for determining the validity of arguments. Elements of good reasoning from an informal perspective will also be covered.

Learning outcomes

1. Acquire analytic skills and a critical disposition.
2. Grasp the central concepts in classical logic.
3. Demonstrate familiarity with major proof-theoretic methods in propositional and predicate logic.
4. Translate arguments in ordinary language into symbolic argument forms.
5. Recognize common valid argument forms.
6. Identify, classify, and assess arguments in various contexts.
7. Identify and analyze informal fallacies.

Topics

1. Logical Thinking
2. Basic Concepts
3. Informal Fallacies
4. Categorical Syllogisms
5. Symbolic Language and Truth Table
6. Natural Deduction in Propositional Logic
7. Natural Deduction in Predicate Logic

Learning activities and workload

In-class:

1. Lecture: 2 hours each week.

Out-of-class:

1. Reading: 3–4 hours each week on lecture material.
2. Homework: 2 hours each week.
Weeks 1–3: textbook Ex1.3–Ex1.4 (Basic Concepts);
Weeks 4–5: textbook Ex3.2–Ex3.4 (Informal Fallacies);
Week 6: textbook Ex4.1–Ex4.7 (Categorical Propositions);
Weeks 7–8: textbook Ex5.2, Ex5.4–Ex5.5 (Categorical Syllogisms);

Week 9: textbook Ex6.1–Ex6.3 (Symbolic Language and Truth Table);
 Weeks 10–11: textbook Ex7.1–Ex7.4 (Natural Deduction in Propositional Logic);
 Weeks 12–13: textbook Ex8.1–Ex8.3 (Natural Deduction in Predicate Logic).

Assessment scheme

<i>Task nature</i>	<i>Description</i>	<i>Weight</i>
Two exams: online mid-term exam and online final exam	Each exam is worth 40%	80%
Online Class participation	Class discussion	10%
Online Two assignments	Each assignment is worth 5%	10%

Remarks:

- Class participation
 - Grading is based on participation in discussion.
- Students must submit a hard copy of the completed assignments.

Feedback for evaluation

- Students are strongly encouraged to provide feedback on the course via email or meetings with lecturer.
- Students evaluate the course through a survey and written comments at the end of the term as well as via regular feedback between teacher and students. This information is highly valued and is used to revise teaching methods, tasks, and content.

Course schedule

<i>Week</i>	<i>Topic</i>	<i>Requirements</i>
1	Logical Thinking	Major reading: textbook pp. 1–25
2–3	Basic Concepts	Major reading: textbook pp. 33–65
4–6	Informal Fallacies	Major reading: textbook pp. 125–193
7–9	Categorical Syllogisms	Major reading: textbook pp. 206–292

10	Symbolic Language and Truth Table	Major reading: textbook pp. 327–377
11–12	Natural Deduction in Propositional Logic	Major reading: textbook pp. 403–445
13	Natural Deduction in Predicate Logic	Major reading: textbook pp. 470–496

Academic honesty and plagiarism

<p>Attention is drawn to University policy and regulations on honesty in academic work, and to the disciplinary guidelines and procedures applicable to breaches of such policy and regulations. Details may be found at http://www.cuhk.edu.hk/policy/academic_honesty/</p> <p>With each assignment, students will be required to submit a signed declaration that they are aware of these policies, regulations, guidelines and procedures. For group projects, all students of the same group should be asked to sign the declaration.</p> <p>For assignments in the form of a computer-generated document that is principally text-based and submitted via VeriGuide, the statement, in the form of a receipt, will be issued by the system upon students' uploading of the soft copy of the assignment. Assignments without the receipt will not be graded by teachers. Only the final version of the assignment should be submitted via VeriGuide.</p>
