2021/22 1st semester
UGED1111I Logic 邏輯
Course Outline

Instructor: Dr. Kwok Pak Nin, Samson
Time: Monday 10:30-12:15
Teaching Mode: Face to face
Venue: LSK LT4

Course overview:

This course is designed to develop the student's ability to analyze and critically evaluate arguments from a logical point of view. It will provide students with a basic understanding of such concepts as reasons, implication, validity, and fallacies. Students will learn the logical principles of deductive and inductive inferences and the techniques of applying them for determining the validity of arguments. Elements of good reasoning from an informal perspective will also be covered.

Learning outcomes:

1. Acquire analytic skills and a critical disposition.
2. Grasp the central concepts in classical logic.
3. Describe the essential elements of good reasoning and argumentation.
4. Demonstrate familiarity with major proof-theoretic methods in propositional logic.
5. Translate arguments in ordinary language into symbolic argument forms.
6. Recognize common valid argument forms.
7. Identify, classify, and assess arguments in various contexts.
8. Identify and analyze informal fallacies.

Learning activities and workload:

- 1. Lecture:** 2 hours each week.
- 2. Reading and Exercise:** 2 to 3 hours per week.

Assessment:

Task nature	Description	Weight
Class participation	Class discussion	5%
Mid-term quiz	In class quiz	30%
Final exam	Centralized exam	50%
Take home assignment	Group assignment on Argumentation theory and Informal Fallacies	15%

Feedback for evaluation:

1. Students are strongly encouraged to provide feedback on the course via email or meetings with lecturer.
2. Students evaluate the course through a survey and written comments at the end of the term as well as via regular feedback between teacher and students. This information is highly valued and is used to revise teaching methods, tasks, and content.

Academic honesty and plagiarism:

Attention is drawn to University policy and regulations on honesty in academic work, and to the disciplinary guidelines and procedures applicable to breaches of such policy and regulations. Details may be found at <http://www.cuhk.edu.hk/policy/academichonesty/> .

With each assignment, students will be required to submit a signed **declaration** that they are aware of these policies, regulations, guidelines and procedures. For group projects, all students of the same group should be asked to sign the declaration.

For assignments in the form of a computer-generated document that is principally text-based and submitted via VeriGuide, the statement, in the form of a receipt, will be issued by the system upon students' uploading of the soft copy of the assignment. Assignments without the receipt will not be graded by teachers. Only the final version of the assignment should be submitted via VeriGuide.
